EXPERIENCE

Since Dec'10 | Tata Consultancy Services| Associate Consultant

At Tata Consultancy Services, facilitated process improvement using Lean Six Sigma methodology to solve inefficiencies with employee productivity and the multiple IT applications required for completing job duties. Generated yearly business case with funding requirements, resources needed, risk assessment, benefit analysis and metrics for measuring success. Collaborated with Finance and Operations to monitor sales reports, sales forecasts, sales trends, and pricing trends, which increased gross margins and resource and equipment utilization. Served as Program Manager/Tower Lead and handled resource allocation, work orders arrangements and stakeholders' discussions & maintenance. Ensured Sarbanes Oxley (SOX) Compliance against fraudulent practices to protect business needs. Ensured and followed-up with compliance policies as per the company's interest and need that includes Data Protection, Know your customer (KYC), Money Laundering, etc. Maintained and enlisted all required Investment Governance and Project Governance activities. Utilized both Agile as well as Waterfall Approach method in acquiring business requirements from various stakeholder units. Documented business requirements and handled project on Volcker

Requirement, Stressed VaR Window Automation (Legal Entity), Risk Not involved in VaR (RNIV) program and Firm Data Submission Framework (FDSF). Enhanced the Market risk platform to load Expected Exposure (EE) profiles and calculate CVA Value-at-Risk (VaR), and report compliant Risk-Weighted Assets (RWA) to Regulators (PRA/FINMA/FED/MAS et al.). Served as Business Engineer for identification of Risk Not-in-VaR (RNIV) risk types across Equities, FX, Rates and Credit and implementation to get them into Value-at-Risk (VaR) models as part of Risk-Weighted Assets (RWA) optimization program.
